Green Faith – Starbucks, Inc. and the group Environmental Defense calculated the environmental impact of a paper cup as one square foot of forest consumed and a quarter pound of carbon dioxide emitted. Nationwide, to make the 130 billion cups of coffee we drink per year in paper cups, this consumes a forest half the size of NJ. That’s just to serve coffee in the USA for the year 2006. The Green Team invites you to re-purpose a ceramic cup from home to contribute to our re-useable cup collection.

Family Promise: We are in need of some gently used blankets and sheets (twin only) for our Family Promise guests. Towels are also needed, as are a few crib sheets. You can leave them on the table in front of the main office.
